Dear Dr Manjunath,

Dated 10th November 2008

It gave me greatest possible pleasure to know you have successfully treated over hundred poor and needy patients with angioplasty, Stent and pace makers implantation procedure free of cost in just five days. This unusual ability is the domain of the few like you. After all the genius are not born in dozens.

The greatness of their Messiah will be understood much better by those patients who suffered bravely but had no means to seek medical relief. Sri Jayadeva Institute of Cardiology has got at last a Director who could make the dreams of hundreds a reality.

You richly deserve my appreciation and also wish you do your splendid service to the less fortunate with love and compassion for many years to come.

There are two aspects that merit appreciation. First, your enthusiasm and kindness towards the poor and suffering to provide relief when they are in need. The second, your unusual ability to convince Dr Subramani Heart foundation Wisconsin USA to donate munificence Stents, Pacemakers Balloons worth Rs30 lakhs for a noble cause which made this purpose a grand success.

My hearty congratulations,

Yours Sincerely,

(Dr.S.Ramananda Shetty)

Dr.C.N.Manjunath, MD.DM (Cardiology)
Professor and HOD, Director,
