Dear Dr.Manjunath sir,  
I am sending this note to send my heartfelt gratitude.

I still remember the day when I was admitted to your hospital for ByPass surgery. It was one of the toughest times of my life. Your personal attention and kindness helped me overcome my fears about surgery even during critical COVID-19 situation.

I am very thankful to you for leading me to Dr.Seetharam Bhat. He is a fantastic doctor and can calm down patient's anxiety by humorous talks.

Thanks for easing my pain. Thank you and your staff for encouraging me when I was down. You have done what medicine alone would not have done. Actual recovery may be in the hands of God but making a patient believe in recovery lies only in the hands of awesome doctors like you.

No words are enough to appreciate the service Jayadeva Hospital is providing.  
A big bunch of thanks from myself and my family for all the COVID-19 warriors at the hospital.

Best Regards,  
S.R.Paramashivaiah
