Subject: FW: Thank you!!

Dear Dr Manjunath,

I would like to take this opportunity to thank you and your team for your "outstanding support "during the process of my mother's (Sushilamma S. Rao) treatment for Coronary Angioplasty.

It was quiet fascinating to see you as an "On hands" Doctor/ Administrator of such a massive organization.

The cool confident and skilled manner in which you handled the whole process was exemplary and second to none. (This is despite my mother's age, which is eighty years old)

I am very impressed with your knowledge and devotion to your field of medicine and your keen focus on cardiology. Your excellent leadership skills has enabled you to surround yourself with a team and colleagues that match and perhaps exceed the performance of any other hospital in the country.

Your archives of modern equipment and labs are very similar to most leading hospitals in the world for the process you performed. I am sure you will keep modernizing with the passage of time.

It was nice to observe that your staffs are polite and patient and treated people from all walks of life the same no matter who and what they are?

All in all no words can thank you enough for the wonderful support you offered to my mother.

May god give you more strength and patience day after day to keep up your excellent service?

I trust my mother is in good hands and please take care of her like your own. .

Hope to see you in The USA one of these days.

My Best wishes and Warm Regards to you and your entire Team

Shankar S Rao.

Jayadeva is one of the best Hospitals in the country, Dr Manjunath is God for countless poor and middle class patients and families. Even Manipal hospital has a Ganesha in the lobby, so what , Just because he is related to a politicians family, the press should not drag such Karma Yogis into the dirty politics arena, even the ruling party has extended his tenure because of his merit. Only middle class patients or their relatives will understand his noble deeds, he is like Mother Teresa accepting patients who are thrown out heartless money minded commercial hospitals at the last minute, as they cannot afford Heart treatment/surgery in those hospitals for the rich.

He is instrumental in getting aid from NRI doctors in form of items needed for heart surgery, countless noble people are donating because Dr Manjunath' efforts. Many poor people are benefitted of camps for poor, Many international doctors have visited and praised Jayadeva hospital, many international patients have been cured here too as well.

Press often reports only for Speciality hospital who spend on them or advertise.

Please do not demotivate Doctors who are on the path of noble service to the poor.

To All readers

Please dont get misleded by this article.There is no truth in this article . Judge a person by his calibre

Neetha Dated : Friday, January 07, 2011 04:21 PM

People who do not have interest in public's health only would criticize Dr. Manjunath. When a patient enters a government run hospital, only an uninterrupted heavenly blessing can bring him out cured. In such a case, why Ganesha; in fact we may need almost all the Gods' idols ins talled.
