Thank You Notes To Doctor

I am sending this note to send my heartfelt gratitude. Thanks for easing my pain and thank you for encouraging me when I was down. You have done what medicine alone would not have done. Continue to be a blessing to others through your profession.

Other doctors simply treat their patients with medicines but forget to do the most important thing which you do – help them to move on with their lives with motivating words and inspirational thoughts. Thanks for everything doc.

No words are enough to appreciate the service you do. You as a doctor and the staff at your hospital has been really helpful and supportive. Thank you for all your service.

As a doctor, you've gone above and beyond everything, I ever would have expected. The world would be a much better place if all of the doctors were like you. Thank you so much for everything that you have done.

Because God could not be everywhere he made sure that we have doctors like you who have the gift of healing mankind. I am so much thankful to you for treating me so tenderly. I feel very healthy now. Thank you so very much.

A patient's testimonial is less of a recognition of a doctor's professional expertise, and more of a recommendation of a doctor's ability to listen, care and heal. I can vouch for the fact that your abilities are unmatched. Thanks, doctor.

Thanks with heart full Regards.

D.S. srikrishna
